

P.C.B. HANDLING FRAME SYSTEM (MEGAPRINT® - MINIPRINT®)

The use of Megaprint® adds 44 mm the container height overall.

art.	overall dim. containers+ Megaprint® (mm)	board capacity insertion	
		width (mm)	depth (mm)
F PA 4052 AO 07	400x300x164	235	150
F PA 4852 AO 07	400x300x264	235	250
F PA 5252 AO 07	400x300x369	235	355

An example of using a Megaprint® in conjunction with a Miniprint® system for P.C.B.'s which are especially long, is shown by using both systems for additional support.

DIVIDERS FOR 400x300

The Megaprint® and Miniprint® systems can be sub-divided in a logical and precise manner using a series of sub-dividers with a special characteristics.

These allow the complete and flexible utilization of the system, because any P.C.B., which is smaller than the container itself can be accomodated.

The dividers are available with three variants which allow a minimum pitch between sub-dividers of 1.7 mm.

The three variants are normal, minus and plus distance.

The construction of the dividers is robust and reinforced in profile with aluminium ribs. In each case the specification and variants of each is clearly marked.
