

# ROBOTIC SPACING SYSTEM

The proven characteristics of the Megaprint® System has been further advanced by the introduction of a Robotic handling version. This system has been designed for use on fully Robotic automated systems and also to dramatically improve insertion time when used in high volume manual production environments.

### Technical Specification of Robotic System

- Width of channels ..... 3.5 mm
- Depth of channels ..... 3.0 mm
- Pitch of channels ..... 15.24 mm
- Minimum sub-division of the system ..... 1.7 mm

Insertion points have increased angled lead ins to improve P.C.B. insertion.
