

The special non-slip relief pattern on the surface guarantees maximum adherence, even in wet conditions.

The non-slip matting can cover electrical cables running along the floor in perfect safety.

The special structure of the matting is designed to withstand heavy loads.

All the parts can be fitted together and removed thanks to a special connection system

Connection clamps and chamfered corner pieces increase operator safety with trolley, help wheels run more smoothly and improve the appearance of the matting.
