L x D x H mm
945x525x1435

L x D x H mm
1135x625x1535

The shelves can be tilted up to 20°.

The uprights feature holes with 26 mm increments for optimising the position and tilting angle of the shelves.

The steel shelves can be fitted with front and rear stops.

The steel or wooden bases can be fitted with front and rear stops.

Storage and stacking containers on page M2 - M4

Side removal system

1. The removable mesh side is quick and easy to open as shown in the three photos on the left.

2. After it is opened, the removable side can be removed by lowering it.

3/4. The removable side can be attached to the rear mesh with the two hooks.
