Fami

BEST PRICE!

The products in the **391 Line** have the **lowest price** of the entire **FAMI** supply.

Fast delivery with dedicated logistics.

plastica seconda vita

The 391 Line plastic containers combine functionality, durability and environmental sustainability. They have the same features as traditional containers, but are made from regenerated plastic, so help to reduce plastic waste and CO_2 emissions, as well as save natural resources. Choosing 391 containers means championing the importance of recycling and is a crucial step towards a sustainable and responsible future.

CUSTOMER CARE AND EXPERTISE **AT YOUR SERVICE!**

CONSULTANCY
Transform your vision into reality!

WARRANTY
Quality that lasts!

5 YEAR WARRANTY

CUSTOMER CARE
Always there to support you!

ORDERS
Choose, order, furnish!

VALIDITY
Guaranteed savings now!

The 391 Line catalogue is valid until 30/09/2026.

SHIPPING
Guaranteed deliveries wherever you are!

All Fami products are prepared and packed with the utmost care, using materials that ensure maximum protection during shipping. Most products are supplied flat-packed to optimise storage space and transport efficiency.

the RK C-parts trolley

Linea 391

This trolley allows RK Box Air containers to be used in two configurations: with horizontal shelves, the full depth of the container can be utilised for storing bulky materials, while the open-front design facilitates easy picking. With inclined shelves, RK Box Air containers enable the orderly and secure storage of C-parts and fasteners, thanks to transversal dividers and front panels.
